

PROFESSIONAL PROPOSAL / COVER LETTER

Dear Hiring Manager,

I am writing to express my interest in the **Senior Medical Biller, Medical Billing Specialist, AR Specialist, Denial Management Specialist, or RCM Specialist** position within your organization.

I am a **Senior Medical Biller and Revenue Cycle Management (RCM) Professional with 5+ years of hands-on experience in US healthcare medical billing**. Throughout my career, I have developed extensive expertise in managing the complete medical billing and revenue cycle process, with a strong focus on improving collections, reducing outstanding accounts receivable, resolving denials, and supporting timely reimbursement.

My professional experience includes **claims submission and processing, AR follow-up, denial and rejection management, insurance eligibility and benefits verification, prior authorization support, payment posting, EOB/ERA review, corrected claims, appeals, patient account management, and claim status follow-up**. I am also experienced in analyzing AR aging and denial trends, identifying billing discrepancies, and implementing appropriate follow-up and resolution strategies.

In my previous roles with **MTBC Pakistan, IconX Solutions, Zephyr Solutions Limited, JDC Group, and 24/7 Medical Billing Services**, I have worked across different areas of US healthcare RCM, including claims management, AR operations, denial resolution, payment reconciliation, team supervision, performance monitoring, and end-to-end billing operations. My management experience has also allowed me to supervise billing staff, coordinate workflows, monitor productivity, and support improvements in overall revenue-cycle performance.

I bring a **results-oriented, analytical, and solution-focused approach** to medical billing. Rather than simply following up on unpaid claims, I focus on identifying the underlying cause of denials, rejections, payment discrepancies, and aging AR so that issues can be corrected and prevented from recurring. I understand the importance of clean claims, accurate documentation, timely follow-up, payer communication, and effective AR management in maintaining a healthy revenue cycle.

I am also trained in **HIPAA compliance**, including patient confidentiality, PHI protection, data privacy and security, appropriate handling of healthcare records, access controls, and secure communication.

I would welcome the opportunity to bring my US healthcare billing knowledge, RCM expertise, AR management skills, denial-resolution experience, and leadership capabilities to your organization. My objective is to contribute to **stronger collections, reduced AR, improved claim accuracy, fewer avoidable denials, and more efficient revenue-cycle operations**.

Thank you for considering my application. I would appreciate the opportunity to discuss how my experience and skills can contribute to your team's success.

Sincerely,

Zia Ur Rahman

Senior Medical Biller | RCM Professional

Medical Billing | AR Follow-up | Denial Management | Claims Management
